The real look of wood with the proven performance of steel. Introducing a new, revolutionary technology from one of the leaders in finished coil. Tru-Steel HD<sup>®</sup> makes steel look like real wood because images are original scans of real objects, providing superior depth and image clarity not offered by any other technology. Our revolutionary, high-definition digital printing process for steel coils enables us to print beautiful and photo-realistic images, up to 32 feet in length without repetition, protected by advanced -technology clear coat.

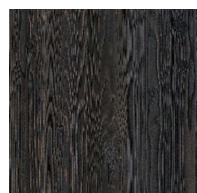

Now you can have the beauty of wood and other finishes – with less maintenance and the longevity and durability of STEEL!
